Regulatory Data Sheet

All rights reserved. Copying and/or downloading of the below provided information on tesa SE products is permitted provided that the given information or its context is not altered.

tesa® 57180-00000-05

Safety information

The above-mentioned product is an article according to Article 3 of the REACH Regulation (EC) No 1907/2006. In accordance with REACH Article 33, there is no legal requirement to provide a safety data sheet for an article. Nevertheless, please find attached to this regulatory data sheet a general safety information sheet for the above-mentioned product.

Prohibitions and Restrictions

Substances of very High Concern (SVHC)

The above-mentioned product does not contain substances mentioned in the current version of the Candidate List of substances of very high concern (SVHC) published on February 4, 2026.

SCIP

A SCIP notification is not required according to the Waste Framework Directive 2008/98/EC as no SVHC substances above 0.1 wt% are contained in the above-mentioned product.

EU REACH Annex XIV

The above-mentioned product does not contain substances mentioned in Annex XIV to the REACH Regulation (EC) No 1907/2006 and its amendments in concentrations ≥ 0.1 wt%.

EU REACH Annex XVII

The above-mentioned product does not contain substances mentioned in Annex XVII to the REACH Regulation (EC) No 1907/2006 and its amendments in concentrations above the limits specified therein.

WEEE directive (2012/19/EU)

The above-mentioned product does not exceed the maximum concentration limits of the substances mentioned in WEEE directive (2012/19/EU).

RoHS directive 2011/65/EU incl. RoHS directive III 2015/863/EU, China RoHS GB/T 26572-2011

The above-mentioned product does not exceed the maximum concentration limits of the substances mentioned in RoHS directive 2011/65/EU incl. RoHS directive III 2015/863/EU and China RoHS GB/T 26572-2011.

Persistent Organic Pollutants (POPs) Regulation (EC) 2019/1021

The above-mentioned product does not contain reportable substances (banned or to be declared) listed in the POPs Regulation (EC) 2019/1021, as amended by Regulation (EU)

2020/784, in concentrations above the limits specified therein. This regulation implements the obligations of the Stockholm Convention on Persistent Organic Pollutants, which aims to eliminate or restrict the production and use of persistent organic pollutants globally.

Ozone-depleting substances Regulation (EC) No 2024/590

The above-mentioned product does not contain reportable substances listed in the Regulation (EU) 2024/590 on substances that deplete the ozone layer in concentrations above the limits specified therein.

European packaging and packaging waste Regulation (EU) 94/62 incl. Directive (EU) 2018/852

The above-mentioned product does not contain reportable substances listed in Directive (EU) 2018/852 (amending Directive 94/62/EC on packaging and packaging waste) or in the EU Packaging and Packaging Waste Regulation (PPWR, Regulation (EU) 2025/40) in concentrations exceeding the applicable limits specified therein.

Biocides Regulation (EU) No 528/2012

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Synthetic polymer Microparticles: Commission Regulation (EU) 2023/2055 and REACH, Annex XVII (78)

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Dual-Use-Substances REGULATION (EU) 2023/2616 of 15 September 2023 amending Regulation (EU) 2021/821

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Food Allergies REGULATION (EU) 1169/2011 of 25 October 2011 amending Regulation (EU) 1924/2006

The above-mentioned product does not contain food allergen(s) mentioned in the Regulation (EU) 1169/2011, Annex II.

Safe drinking Water and Toxic Enforcement Act: California Proposition 65

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Toxic Substances Control Act 1976 (TSCA), section 6 Regulation of Chemicals

The above-mentioned product does not contain the following substances in concentrations ≥ 0.1 % (w/w), mentioned under the Toxic Substances Control Act 1976 section 6 or in concentrations above the limits specified therein:

Phenol, isopropylated phosphate (3:1) (PIP (3:1), CAS 68937-41-7;

Hexachlorobutadiene HCBd, CAS 87-68-3;

Decabromodiphenyl Ether decaBDE, CAS 1163-19-5;

Pentachlorothiophenol PCTP, CAS 133-49-3;

2,4,6-Tri-tert-butylphenol 2,4,6-TTBP, CAS 732-26-3;

Trichloroethylene, CAS 79-01-6;

Tetrachloroethylene, CAS 127-18-4;

Carbon tetrachloride, CAS 56-23-5

Conflict Minerals

The above-mentioned product does not contain the following Conflict Minerals:

Gold
Tungsten
Tantalum
Tin
Cobalt
Mica

Per- and polyfluoroalkyl substances (PFAS)

The above-mentioned product does not contain reportable substances as defined by the OECD in 2021.

Global automotive declarable substance list (GADSL)

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Nanoparticles as per definition of the European Commission

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Halogen Free - International Electrotechnical Commission (IEC) 61249-2-21 standard

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Chlorinated and Brominated Flame retardants

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Bisphenol A, BADGE, NOGE, BFDGE

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Cancerogenic, Mutagenic and reprotoxic (CMR) Substances

CMR EU:

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

CMR US:

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Silicone

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Phthalates

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Latex

During manufacturing latex was added to the product. Due to additional process steps the finished product doesn't contain latex (removal of impurities not feasible).

Antimony

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Beryllium

The above-mentioned product does not contain Beryllium.

Mineral oil

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Halal/Kosher/ substances of animal origin

The above-mentioned product is an industrially manufactured product and has not been certified to meet the Halal or Kosher requirements.

Currently, data is being collected and assessed. For this specific info, please contact regulatory.affairs@tesa.com.

Asbestos

The above-mentioned product does not contain Asbestos.

Polycyclic aromatic hydrocarbons (PAH)

The above-mentioned product does not contain Polycyclic Aromatic Hydrocarbons.

SIS

Safety Information Sheet for Articles

Identification of the article and the company

Trade name: tesa® 57180-00000-05

Manufacturer/Supplier: tesa SE
Hugo-Kirchberg-Straße 1
22848 Norderstedt
Germany

Informing department: tesa SE, Corporate Regulatory Affairs,
SDS@tesa.com

Safety Information for articles

The above mentioned tesa® product qualifies as an article under the definition provided in the REACH Regulation (EC) No. 1907/2006. In accordance with REACH Article 33, there is no legal obligation to provide a safety data sheet for an article.

The tesa SE safety information sheet provides information about the use and safe handling of the above-mentioned article.

Hazard Identification

Classification (CLP) and Label elements (CLP): Substances and preparations marketed in a specific form or within specific containers need not to be classified according to the REACH Regulation Article 3 (3).

Composition / Information on ingredients

Chemical characterization:
Backing: Paper
Impregnation: Synthetic rubber
Adhesive: Mixture of natural rubber, resins and additives

First aid measures

Inhalation:
Dust might occur while cutting the tape. Do not inhale the dust. Persons who have inhaled the dust should consult a doctor if unwell. Move to fresh air.

Skin contact:
Remove contaminated clothing and wash skin with soap and plenty of water. Consult a doctor if unwell or skin irritation persists. Wash contaminated clothing before wearing again.

Eye contact:

Rinse opened eye for several minutes under running water. Consult a doctor if symptoms persist.

Ingestion:

If swallowed, rinse mouth with plenty of water. Seek medical attention if feeling unwell. Only induce vomiting on the advice of a doctor. Never administer anything by mouth to an unconscious person.

Firefighting measures

Suitable extinguishing agents: CO₂, extinguishing powder, or water jet. Fight larger fires with water jet. Use appropriate firefighting measures.

Special hazards arising from the substance or mixture:

Can be released in case of fire:

Nitrogen oxide (NO_x)

Carbon monoxide (CO)

In some fire situations, it is possible that additional harmful gases may be present.

Advice for firefighters:

In case of fire, keep containers cool with water spray.

Protective equipment:

Put on breathing apparatus.

Do not inhale explosion gases or combustion gases.

Accidental release measures

Personal precautions, protective equipment, and emergency procedures

Avoid contact with skin and eyes. Wear protective equipment. Ensure adequate ventilation.

Environmental precautions Do not empty into drains / surface water / ground water.

Methods and material for containment and cleaning up:

Scrape up as much material as possible. Sweep up spilled material. Avoid creating dust. Keep in suitable and closed containers for disposal.

Handling and storage

Precautions for safe handling Avoid skin and eye contact.

The appropriate industrial and environmental safety measures must be taken for processing steps which cause dust. Ensure good ventilation/exhaustion at the workplace. Take note of emission threshold.

Store in cool dry conditions. Keep away from ignition sources – do not smoke.

Exposure controls/personal protections

Ensure good ventilation/extraction.

Respiratory protection:

An approved mask or respirator fitted with an organic vapor cartridge should be worn if the product is used in a poorly ventilated area Filter type: A (EN 14387)

Hand protection:

Avoid repeated and prolonged contact with the skin, use protective gloves.

If signs of wear and tear arise the gloves should be replaced.

Eye protection:

Wear protective glasses. Protective eye equipment should conform to EN166.

Skin protection:

Wear suitable protective clothing.

The information provided on personal protective equipment is for guidance purposes only. A full risk assessment should be conducted prior to using this product to determine the appropriate personal protective equipment to suit local conditions.

Physical and chemical properties

Form: solid

Stability and reactivity

Stable under recommended storage conditions

Toxicological information

No data available.

Ecological information

No further relevant information available.

Disposal considerations

Waste treatment methods product disposal: Do not empty into drains / surface water / groundwater. Dispose in accordance with local and national regulations.

Transport information

Not applicable. Not dangerous according to the above-mentioned specifications.

Regulatory information

A Chemical Safety Assessment has not been carried out.

FOOD CONTACT STATEMENT

tesa® 57180-00000-05

tesa® 57180-00000-05 has not been formulated to come into contact with food /the packed content.

Being a technical product, it has not been manufactured under Good Manufacturing Practice (GMP) (EU Regulation (EC) No 2023/2006) conditions and therefore does neither fulfill the provisions of the German Food and Feed Code (LFGB), Regulation (EC) No 1935/2004 of the European Parliament or COM-MISSION REGULATION (EU) No 10/2011 on plastic materials and articles intended to come into contact with food, nor US FDA CFR 21.

The user must ensure that the tape does not come in direct food contact.

As the above-mentioned product is a purely technical product tesa SE has not performed any migration tests or compliance checks for the use as a food contact material in any food contact related application.

For any application involving *indirect* food contact, tesa SE must emphasize that it is the responsibility of the user to always ensure the presence of a functional barrier. This barrier must comply with the relevant regulations for the specific application to prevent any migration of potentially harmful substances into the food.

It is within the responsibility of the final food contact material manufacturer, that the finished food contact material does not transfer its constituents to food in quantities which could endanger human health or bring about an unacceptable change in the composition of the food or bring about deterioration in the organoleptic characteristics thereof.

The user must ensure the suitability of the product for the intended product application.

The assessment was performed, based on suppliers' declarations and raw material specifications, to the best of our knowledge and current state of knowledge. No further tests were carried out.

This statement is valid from the date of issue of this document and overwrites any previously issued version.

Other information

We certify that the above information and statements, including but not limited to the product composition data, are valid and correct to the best of our knowledge. We have implemented systems to the best of our ability to ensure that tesa® products are compliant to global environmental regulations and laws. However, not all materials in our products may have been independently tested for their substance content, therefore we cannot assure the correctness and validity of these information and statements. We are also not in a position to make statements or provide information about our customers' products in which tesa® products are incorporated, unless the relevant information and statements are exceptionally included (marked) above.

In the event of any issues arising from the information and/or statements contained in this document, our General Terms and Conditions of Sale (Terms & Conditions - tesa®) shall apply.

Any conflicts between the information in this document and written contracts will be resolved in favor of the contracts. The information and statements in this document or this document itself do not have the effect of amending any of these contracts.

This document is electronically generated and valid without signature.
