

## Crystal Salt - 10 kg

### GENERAL

#### Regeneration salt

- Dissolves quickly and completely
- For use in domestic and semi- industrial machines
- Recommended for use in combination with Crystal Powder and Crystal Rinse

Crystal Salt is a regeneration salt for dishwashing machines. Use Crystal Salt to ensure that you obtain the best possible cleaning results. Crystal Salt does not contain any insoluble particles, and the granule size is monitored constantly to ensure good solubility in the water softener. Crystal Salt is free from chlorine compounds, other halogen compounds, and petroleum-based surfactants. All surfactants used in these products originate from vegetable sources. All ingredients of non-mineral origin are fully biodegradable.

### USAGE

The replenishment interval for the salt reservoir depends on the water hardness. Check the salt level in the reservoir regularly, or check the visual indicator (if present). The amount of salt needed increases with the hardness of the water, so you must check the salt level more frequently if you have relatively hard water. Keep in a dry place. Always close the package securely after use.

**Only use this product for its specified purposes. If in doubt, first test the product in an inconspicuous area. Greenspeed is not responsible for any damages if the product is used incorrectly. Consult the Safety Data Sheet (SDS) for additional information.**

## Crystal Salt - 10 kg

### TECHNICAL SPECIFICATIONS

**Dimensions product (WxHxD)** 29.5 x 23.5 x 29.5 cm

appearance: Powder

colour: White

odeur: Fragrance free

solubility in water: Good

relative density 20°C: 1,000 Kg/L

### LOGISTIC DATA

#### Product

Article	432010001
Unit	Bucket
Content	10kg
Gross weight	10600 g
Net weight	10100 g
EAN code	EAN 5407003310320

#### Packing

Quantity per packing	1
----------------------	---

#### Pallet

Quantity per pallet	33
Layers	3
Units per layer	11
